Intel Drop #64

The following was collated from intel sent to our team from Gideon. As always, all intel sent by Gideon is edited by Michael for clarity and for obfuscation purposes (see: Stylometry):

Bill: It's been an incredible couple of weeks. I have some notes here, so I'll get things started, and hopefully we can talk for a bit without interruption.

Gideon: ***"Please proceed."***

Bill: There were four significant confirmations of your past intel that I posted on my Twitter, with respect to Epstein being alive, confirmed by a former victim of his, the nano tech in everyone's blood including the unvaccinated, confirmed by Dr. Edward Group, the Trump and Netanyahu distancing confirmed to be manufactured and staged, and your contention A.I. is accessing extra-dimensional beings confirmed by the New York Times, of all sources. I mention this so newer readers understand that in over sixty Intel Drops, your information has been proven accurate over and over again.

Gideon: ***"Thank you, Bill, for following up on that intel and confirming it. I cannot take credit for everything. My sources and the whistle blowers have provided much of it, and so far, they have been highly accurate."***

Bill: But you do a great job bringing it to people and putting it in perspective, so thank you. Seeing the results from Dr. Group about what's in our blood, that hit home, the nano tech really is in all of us, exactly as you said two years ago.

Gideon: ***"It is and there is only one cure for it, the antidote, which the cabal possesses and which will only be available to Sovereign classes in Obsidian.***

The antidote is a very, very key data point no gatekeeper in Alternative Media will speak of. I have not heard it spoken of once. The gatekeepers will talk about anything except the antidote, which they are fully aware of."

Bill: The antidote is really important, but people keep telling me natural remedies and detoxing will get rid of this nano tech. You say it won't, period.

Gideon: ***"It is not even possible, the nano tech is literally designed to actually destroy and kill cells and kill the body if it is removed or disrupted in any way. It has to be turned off, with a key, with this antidote the cabal created."***

Bill: I don't think people get what's happening. They think, "Well, I didn't take the vaccine, so I'm fine." No, you're not fine. You are under attack from Starlink, from the nano tech, eventually from the Obsidian social credit system, from these cabal gatekeepers, from all sides. I don't think people are ready for what's coming.

Gideon: ***"They are not, but I can forgive them for not wanting to face this and feeling alone and feeling they have no answers. I want to implore them that joining our team and being on our team is probably their best preparation. What the whistle blowers have provided us and our team is probably the best protection we can have, short of God's grace."***

Bill: People still can't accept this is coming. I had someone message me on Telegram the other day saying Trump is doing a great job and we're just too negative, we're not seeing the good Trump's doing. That blew my mind. Then someone else last week

sent me some nonsense about how the Galactic Federation and Pleiadians are going to save humanity and we're all going to upgrade to a higher frequency, which is more hopium. It's incredible how many people are steeped in this gatekeeping mind-control.

Gideon: ***"Unfortunately, because the A.I. is getting more advanced, many good spirited people who are against the cabal agenda are being misled. They are finding gatekeepers who seem legitimate to them, who seem convincing, and they are following them. Since the gatekeepers are receiving updates and instructions from the cabal's A.I., a system we call Hex, they are getting even better at misleading people."***

Bill: You said you want to update our list of gatekeepers, which we posted in 2022. I looked over it again recently and I realized a lot of new gatekeepers have come onto the scene. Are the whistle blowers willing to look people up again in Obsidian?

Gideon: ***"They have been. The whistle blowers stopped checking on accounts a long time ago, due to the risks, but they finally agreed certain people needed to be checked. It was important, partly because I needed to know who I could reach out to in an effort to expand our team. I found out almost no one could be trusted at all."***

Editor's note: If you wish to submit the name of a media personality or public figure you would like the whistle blowers to check on within Obsidian, please email us at securecommssov@proton.me with the headline, "Gatekeeper check". Gideon will review and pass along any submissions.

Bill: We're going to get that posted soon, it's going to be very interesting to see that list updated. I'll move onto the news now. We have Israel basically fulfilling prophecy in attacking Iran. It's a stunning turn of events. People have been talking about it for years, speculating when it would happen, now it has, and the escalation on both sides has been fairly intense. It's scary because people think it means World War III is coming now. What is your take on it?

Gideon: ***"It is a drastic move toward a certain, particular timeline, one I have spoken about. The key inflection points will happen over the next three months."***

Bill: What will those be?

Gideon: ***"I am looking for Israel to blame Iran for something, such as a chemical attack. I am looking for something that will bring in the U.S. more, as well, possibly a false flag on the homeland of America, or an attack on her military ships. We are in one phase of escalation, but it is a very early phase."***

Bill: What about peace? Trump is talking peace. Is there any legitimacy to that? I think I know the answer.

Gideon: ***"No. Trump is speaking in circles about peace and ceasefires, then declaring Iran cannot have a nuclear weapon. He is playing a game, playing out a script."***

Bill: Do you think it's at all possible there might be peace or ceasefire and this just stops?

Gideon: ***"Yes. Momentarily. I think there will be a pause. Then I would expect a false flag blamed on Iran or another instigation by Israel. I expect the U.S. and Israel to over-step, to commit some kind of inhumane crime that may get the attention of the world.***

I say this because Iran's response has been so aggressive. I know the West will not tolerate that, not from a public relations standpoint. I expect Israel and the U.S. to push back and probably go too far.

This will bring in China and Pakistan, in my view, though Turkey could become involved, too. A few of these countries will come to Iran's aid and may actually attack Israel. This is the inflection point where the U.S. may become embroiled in wider theatre of operations, leading to world war."

Bill: The cabal always needs a boogeyman, someone to be afraid of, and they've been scaring people about Iran as far back as I can remember. Iran isn't a real threat, are they?

Gideon: ***"No, Iran is not a threat. They are just a player in the global narrative."***

Bill: I know, it's all propaganda. But is Iran controlled by the cabal?

Gideon: ***"In short, yes. There is some research on that any reader can explore. With that said, Iran is a country rich in history and its people are friendly and welcoming. The propaganda spewed by the West about Iran is, generally, false or misleading."***

Bill: What's the long-term end game here between Israel and Iran?

Gideon: ***"World war, first, expected by 2028. Then the cabal is aiming for a situation where a new order rises to stop the conflict, stop the world war, and in that new order, a new currency, a new system. A Phoenix rising from the ashes.***

What I am describing is very far off, years away, after the world has descended into chaos, but that is one avenue they wish to bring about the agenda by the 2030s.

There are three timelines I have been told about that the cabal is deciding upon right now. We can discuss those later, but for now, I am speaking of the false light timeline, whereby the cabal destroys its old remnants with a false freedom movement.

Now, I will say something that will sound very unusual, but it would not surprise me if someone like Tucker Carlson leads this new movement. It would be further down the line, after a series of calamities."

Bill: Maybe explain more here, because Tucker came out against Trump on Iran, and Trump bashed him, calling him "kooky". I felt Tucker was a top cabalist, and you have said he is Sovereign, so what is the play here?

Gideon: ***"It is for him to capture or 'silo' the very much growing contingent of Americans who are against Israel, who are waking up to Israel. The cabal wants them captured psychologically and under control, so someone like Carlson can***

play that role as their leader. He will pretend to support their point of view, and he already is."

Bill: His father was CIA, and we've talked before how he's a cabal asset, but lately he's really transformed himself. It makes sense to me what you're saying, that he might take on that mantle of that leadership, to lead the people against all of this.

Gideon: ***"The cabal is considering dispensing of old orders, like Israel, and bringing in new ones, and creating false defeat of the old and false victories for the new. The U.S. will be dispensed of as well. There will be a world government, but the cabal wants the freedom fighters to form it, maybe the unvaccinated.***

What no one will see in any of this is that between A.I., the nano tech in our blood and Starlink, we will not be using our free will to do any of this. We will be subject to something else."

Bill: Why do you say the unvaccinated?

Gideon: ***"Because many of the vaccinated will not even be alive in 2030 to lead anything."***

Bill: I know some of your newer intel has shaped your view on this. You think by 2030, the obvious agenda here - the forced vaccinations, the social credit control, the Digital I.Ds - which I assume is one of the three timelines, some of that might end up defeated in some way by this false light, false victory, false new order.

Gideon: ***"The cabal is testing this timeline with their A.I. I do not think it is written in stone. The totalitarian push, the top-down control enforcement is probably more likely, possibly draped in some of Trump's Golden Age optics and Musk's transhumanism ethic, but we must look at all scenarios to be ready and prepared."***

Bill: That's a new wrinkle in all of this, but you told me it's far off and a lot more has to happen.

Gideon: ***"Many, many events will precede it. So, we are preparing for those, not for this speculative outcome. I speak of it simply because we must be prepared for the unexpected. The A.I. is too advanced.***

I have even been told the A.I. scans our Intel Drops and incorporates our intel into the timeline, to ensure the cabal's moves and tactics are not exposed.

I cannot confirm this, though, it was something passed along to me. It is one reason I am considering ending the Intel Drops and making them fully private for our team only."

Bill: Because you think we might be giving the cabal comfort, because the A.I. is adjusting because of us?

Gideon: "Yes, but I want to confirm it first. It could simply be the cabal is trying to dissuade me and us. I will not take action until it is fully confirmed with other sources I trust."

Bill: I'm looking at my notes here, you gained more intel on something that you said was worrying you. Do you recall what you said to me?

Gideon: ***"Yes, the cyberattacks?"***

Bill: That was it.

Gideon: ***"If there is anything to worry about right now, it is this. A major event is on the horizon, a banking shutdown and cyberattack, one that will be worldwide or at least target major countries. We have seen a lot of testing in this area. It is being prepared. My sources all agree on this. This event is the catalyst, along with the war preparations.***

When it happens, you will be without ATMs and banking for at least one to two weeks, maybe longer. If you have fiat in the bank, expect to lose it, expect the bank account to be emptied completely. The cabal will blame the cyberattackers and begin issuing temporary credits, probably USDR and through Obsidian, but this will not be obvious at first, it will be more of a test phase. Elon Musk may

provide some assistance through his X Payments app, but it will not be U.S. Dollars or fiat.

There will also be power outages in some areas. Parts of the Internet will go down.

The stand-still shut down of Spain during its recent power outage test showed society will grind to a complete halt within hours. That was a test by the cabal. More are to come and then the final trigger point.

It will be catastrophic when it happens, and may induce lockdowns and Martial Law. My sources say lockdowns and stopping movement and travel are the first goal, and the second is updating and changing how banking works, likely integrating Obsidian into daily life. Then the Biometric IDs for everyone will eventually be activated, probably with the argument that they 'have' to do this to stop the cyberattackers."

Bill: Well, I believe it, I think all the predictive programming and dominoes are in place for it. It's a matter of time.

Gideon: ***"It is. I am looking at October or December of this year, or early 2026. It is critical those reading understand this will happen, I give it a probability of 90% or more."***

Bill: You mentioned before, you wanted people checked in Obsidian to see if any of these people in Alternative Media could be trusted to join our team. With a cyberattack like this on the horizon, we need people now to help us before it's too late. Can you talk more about that?

Gideon: ***"I have done my best through back channels to find individuals in public or media positions to help us, and at nearly every juncture, they cannot be trusted. They are cabalists and Sovereigns in Obsidian. It is disheartening because our team needs to be stronger.***

I believe a number of these people used to be against the cabal, trying to report on the truth and along the way the cabal either threatened them or lured them

into a deal by offering them USDR or giving them Sovereign status and the opportunity to acquire it."

Bill: Why do people give up their principles so easily like that?

Gideon: ***"Well, many would be warned that if they spoke of Obsidian, or rejected the deal, they would be targeted, killed, or their families killed. So, that is part of it, but not everyone is threatened.***

You have to understand the appeal of Sovereign status itself. Many would give up anything for it, and many gave up their integrity for it. They end up seeing how wealthy they will become with USDR, and how it is all spiritually connected. They then lose sight of the fact they are compromising their own souls in the process to willingly join the cabal in such a way. It is utterly cowardly."

Bill: I have in my notes here all this evidence of Trump's gifting, his scam crypto coin, all the crap he's selling, now he's got a new gold-laquered phone that's Chinese made. They're stooping really low to grab up whatever they can get while they can. You said the whistle blowers looked at Trump's Obsidian account. What's your update on that?

Gideon: ***"The Trump family is milking their Sovereign status for all they can to gain USDR, so that is the main motivation. The Trump account now has over $25 Billion USDR in it, but there appear to be about two dozen accounts all linked to the Trump family and in total, the USDR number is astronomical. So, clearly, they have served the cabal well and will continue to do so, and their main motivation is money, USDR."***

Bill: Do you think they know about the spiritual element of USDR, how it carries over to the next life?

Gideon: ***"Yes. Most of the Sovereigns know this."***

Bill: Does the cabal care that the Trumps are so obviously and openly greedy and so focused on getting USDR?

Gideon: ***"Not at all. Many of the cabalists with Sovereign status are behaving the same way, that is why if you look closely, government budgets do not make sense, the debt does not make sense, corporate valuations do not make sense, even the crypto market does not make sense.***

Why? Because they are using all of the fiat infrastructure to loot it and move it into USDR. Eventually, fiat will collapse, they know that, and they are taking advantage of the final hours right now to gain as much USDR as possible. They will not be able to do this once USDR is fully online."

Bill: Very well explained, thank you. I wonder if there is any political dynasty ahead for them, once Trump goes, will his sons fill his shoes?

Gideon: ***"My intel says Trump may not even finish his term. The cabal will move other assets in. The U.S. is not expected to even survive into 2028 to begin with. This may explain why the Trumps are moving hard to gain USDR so quickly, I believe they know their roles are going to come to an end. The cabal wants new leaders and new blood, I have been told, to handle a situation that is going to happen, a situation where U.N. troops will be on American streets and Martial Law declared."***

Bill: Very interesting point here, because there's a lot of evidence the migrants that flooded into the U.S. were sent there by the U.N. and they're undercover now until they're activated at some point. Now, with that in mind, why would Trump push for these ICE raids to get rid of all the illegals?

Gideon: ***"Because the ICE operations are not what they seem, and many of the migrants either being sent home or who have self-deported are not part of the U.N. troop infiltration.***

The bigger goal is to put policies and laws in place so the U.S. government can completely suspend rights under the guise of 'immigration enforcement' and also capture Americans without due process and send them to prisons like those in El Salvador. They are already purging patriots and good people, but this is not being reported on the news.

As an aside, we know a lot of events are going on that are never, ever reported. This is a story and a conversation in and of itself."

Bill: We touched on that, it's very interesting what you're alleging. You told me a few big things have happened that no one even knows about because there is such a total censorship blackout not even independent reporters know about it.

Gideon: ***"Yes, I am being given some of this information, I am being guided to look deeper. I do not know all the stories that have gone unreported, I just know they are happening.***

Particularly, a lot of people are being attacked in their homes, disappeared, they have gone missing, and the reports of this do not even make the local news. They are able to now control what police departments are issuing publicly, and even keep local law enforcement completely out of certain events. This is where the A.I. is being used by the U.S. government now, and other governments, because it is so fast, it is able to pinpoint an event and then 'erase' that event."

Bill: Do you think they're going in, removing people and erasing them, and then replacing them somehow?

Gideon: ***"They are targeting Restricted and Quarantined class individuals in Obsidian, yes, but I think we should speak off the record on this later. This is sensitive intel and I do not want us to get escalated."***

Bill: Perfectly fine with me. Something I think people don't realize is we have probably five or six Intel Drops that we couldn't ever release, and a good portion of our conversations we either don't release or we can't release. You said if there was more public response, we would, but there isn't enough to protect us.

Gideon: ***"No, our support is among a very small, dedicated group of people who saw through the veil. These Intel Drops are for them and to document the truth along the way, but I will not compromise our team just to release certain intel.***

If the public truly wanted the truth, and our Intel Drops were spread among hundreds of thousands of readers, we could release more because we would have the protection of mass exposure. We do not have that at all, so our team will always come first."

Bill: It's frustrating, people are so apathetic, no one even cares anymore about fighting the cabal. The main reason seems to be they believe in Trump or they don't think Obsidian can happen, it's like mass denial. Our intel is the hardest-hitting out there and people are upset we don't tell people there are white hats behind the scenes working with Trump to save the day, like A Qnon does. We're not going to whitewash the truth. This is the truth, it's bad, it's really bad, because the cabal is in total control. I'm sorry, I'm ranting a bit.

Gideon: ***"Your frustrations extend to my own intel circles. Some of these individuals know the truth but they are too afraid to do anything about it."***

Bill: When the time comes, I'm ready, and I think our team is ready. When you issue the mission orders, I'm going to follow through. End of story. The cabal will hold no sway over me.

Gideon: ***"That is an oath I hope our entire team takes."***

Bill: I'll bring this to a close and we'll talk off the record now. I'll get this Michael and we'll get it out, and hopefully the gatekeeper list will be coming soon.

Gideon: ***"I hope so, it will be enlightening for our supporters, I think."***

Bill: I hope everyone reading just takes action, helps spread the word, just educates themselves on the intel we've provided so they know what's coming. There's almost no time left.

Gideon: ***"Time is incredibly short. This war is a harbinger. It means everything is accelerating."***

Bill: Alright, we'll close this part of the Intel Drop, but hopefully we'll have another one up in about a week. God bless to everyone reading.
